

Fighting chance

*The smoke in the air
Caused by a cigarette
Brings harm to those around
Death hasn't come...yet*

*Give your lungs a life
Give your life a chance
As you continue to smoke
You see your life disappear at a glance*

*Lives are being hurt
By the smoke from a dirty breath
Scars in ones heart as they die
The biggest scar is what they left*

*Seeing the smoke disappear
Is like seeing your life slowly go away
As the winds blow to clear the air
A smokers life is barely to stay*

*Stop while you can
Don't let your life go at a glance
Give your life the one thing it deserves
Give your lungs and life a fighting chance*
